

The graph displays the Equal Error Rate (EER) for 20 different ECG samples as a function of the number of samples used. The X-axis represents the 'Number of ECG Samples' from 0 to 40, and the Y-axis represents the 'EER' from 0.00 to 0.10. A red dot indicates the minimum EER value of 0.0063 at 35 samples. The legend on the right identifies the lines for ECG 1 through ECG 20 and the 'Mean' line.

Number of ECG Samples	EER (Mean)
0	0.0400
5	0.0150
10	0.0100
15	0.0100
20	0.0100
25	0.0100
30	0.0100
35	0.0063
40	0.0100
