

The graph displays the Equal Error Rate (EER) for 20 different ECGs and their mean as a function of the number of ECGs used. The x-axis represents the 'Number of ECGs' from 0 to 40, and the y-axis represents the 'EER' from 0.0000 to 0.0001. A red dot on the 'Mean' line at x=36 indicates the minimum mean EER of 0.0001. The legend lists ECG 1 through ECG 20 and the Mean line.
