

Line graph showing EER (%) vs. Number of ECGs (0.0 to 20.0). The graph displays the EER for 20 individual ECGs (ECG 1 to ECG 20) and the Mean EER. The EER generally decreases as the number of ECGs increases, stabilizing around 0.05%.

Annotations:

- EER MEAN = 0.049 %
- STD MEAN = 0.156 %

STD MEAN = 0.156 %
